PERSONAL SEARCH

Inspection of representation of Trade Marks may, on payment of the prescribed fees, made at the Trade Marks Registry, between 9:00 a.m. to 3:00 p.m. Monday to Saturday (Except Friday from 9:00 a.m. to 1:00 p.m.).

APPLICATION NUMBERS

In each advertisement the number stated before the specification of goods indicates the number of the application.

OPPOSITION

Notice is hereby given that any person who has grounds of opposition to the registration of any of the marks advertised herein according to classes under the heading "Applications Accepted and Advertised for inviting Opposition, if any" may, within two months from the date of this Journal, lodge Notice of Opposition on Form T.M-5 accompanied by the prescribed fee of Rs.9,000/-.

The period for lodging Notice of Opposition may be extended by the Registrar, if he thinks so and upon such terms as he may direct.

Request for extension of time shall always bear the reference the name of prospective opponent and the number of Trade Marks, if any, to be made basis of opposition.

It is desirable that formal opposition should not be lodged until notice has been given by letter to the applicant for registration, so as to afford him an opportunity of withdrawing his application before the expense of preparing the Notice of Opposition is incurred. Failure to give such notice may be taken into account in considering any application by an opponent for an order of costs if the opposition is uncontested by the applicants.

NOTIFICATION

It is notified for general information that Form TM-1, must be completed in all respects and informations asked for must be provided. Instructions for Completions of TM-1, given on this form in the Rules should be followed. The instruction at (f) and (g) relating to user and signature are clear and noncompliance leads to over work for the Trade Marks Registry and un-necessary delay for the Applicants. Incomplete forms will not be received, and if received by POST will not be examined at their turn, till they are complete in all respects.

EXTENSION OF TIME

2. It has been observed that in opposition and Rectification cases, both the parties or their Agents/Advocates make requests on Form TM-56 for Extension of time, which are liberally granted to the parties. This practice not only delays the disposal of cases, but also results in accumulation of work. In order to discourage this practice, it is notified for general information that no unnecessary extension of time will be allowed except substantiated by cogent and convincing reasons and that mere collection of data or compilation of paper would not be sufficient reasons for asking such extension. All concerned should note and cooperate for early disposal of contested cases. Besides requests for extension of time in opposition cases must be accompanied by valid power of authorization, without which such requests are liable to be treated as un-authorized.

AUTHENTICATION OF FOREIGN DOCUMENTS AND POWER OF ATTORNEY.

3. It is notified for general information that all Foreign Documents and the Power of Attorneys shall be executed before, and authenticated by a Notary Public, or any Court, Judge, Magistrate, Consul or Vice Consul, or Representation of the Central Government as enumerated in Section 85 of the Evidence Act.

MADRID SYSTEM

4. "By the grace of All mighty ALLAH Pakistan became the member of Madrid Protocol on June 24th May 2021. The Protocol Relating to the Madrid Agreement Concerning the International Registration of Marks (Madrid Protocol) is an international treaty that offers businesses and innovators the possibility of obtaining trademark protection in more than 100 countries by filing one single international application in one language with the World Intellectual Property Organization (WIPO). One overall payment is made in one currency, the Swiss Franc (CHF), thus simplifying the application process and providing financial savings for those seeking to obtain and maintain protection for their trademarks internationally. The International Bureau of the WIPO, located in Geneva, Switzerland administers the international registration system. The Intellectual Property Organization of Pakistan (IPO) is responsible for the administration and processing of trademarks in Pakistan. IPO's mandate is to deliver high quality and timely IP services to customers, and to increase awareness, knowledge and effective use of IP by Pakistanis.

The International Trade Marks Applications under Madrid system are being published in this Trade Marks Journal, filing of opposition by any aggrieved person will be entertain and proceed as per Trade Marks Ordinance 2001 and Rules 2004".

speed governors for machines, engines and motors; superchargers; tools [parts of machines]; turbocompressors; electric motors, starters [excluding those for land vehicles], generators, ignition systems for internal combustion engines, glow plugs, spark plugs, lambda sensors, ignition distributors, ignition coils, magneto igniters, spark plug connectors, injection pumps, fuel pumps, speed regulators for machines and engines, injection for engines and holders for injectors; machine valves; devices for direct hydrogen injection into the internal combustion engine; compressors for gases [hydrogen gas or liquids]; hydraulic installations [compressors]; fuel pumps and compressors; compressors for gases; hydrogen compressors; parts and accessories for hydrogen storage systems and hydrogen supply systems in fuel cells, namely hydrogen valves [pressure valves [machine parts]], hydrogen end plugs [pressure valves [machine parts]], hydrogen manifolds [machine parts], as well as hydrogen control devices for machines or engines; fuel filters; oil filters; filters for cleaning cooling air, for engines and mechanical purposes; hydraulic pumps; hydraulic engines and motors; hydraulic valves; hydraulic cylinders as machine parts; hydraulic accumulators as machine parts; hydraulic filters as parts of machines or engines; pneumatic valves, namely compressed air compressors, compressed air tanks, control valves, brake valves [parts and accessories of machines]; turbo-superchargers; module elements for automatic assembly and manufacturing technology, including workplace equipment, namely machine-adapted work tables and workbenches, machine mounts, safety and protective devices, swivel workstations, lifting devices, table presses [machines], as well as material supply and organization systems, namely conveyor belts and conveyor chains, vibrating conveyors, tipping levers [machine parts], as well as programmable electrical devices [conveying systems] including grippers [machine parts] and robotic arms for industrial purposes; deburring machines [mechanical, thermal, and electrochemical]; packaging machines; motors, electric, other than for land vehicles; starting devices for internal combustion engines; high frequency generators; agricultural implements, other than hand-operated; electric gardening tools, in particular hedge trimmers, lawn mowers, grass shears, grass trimmers, scythes, shredders, pumps; motor-driven agricultural implements and gardening tools and machines, in particular blowers, compressors, and pressure washers as machines, vacuums [as machines], lawn mowers, and motor-driven devices for lawn scarifying, mechanical soil and lawn cultivation equipment, and lawn trimmers; motor-driven saws; machine cutting devices; motor-driven scissors; motor-driven shredders; pumps [as far as included in class 7], in particular water pumps; machine- operated maintenance and cleaning devices; electric power tools, namely drills [power tools]; drivers; grooving machines; grinding, cutting, and roughing machines; extraction devices and dust collection devices for the aforementioned goods; power tools and their interchangeable tools; multi-purpose vacuum cleaner; the aforementioned goods also as battery-operated hand tools; electric household and kitchen machines and appliances and their accessories, namely machines for chopping, machines for mixing and kneading, pressing machines, juicers, juice extractors, grinders, cutting machines, electric can openers, knife sharpeners, as well as machines and apparatuses for preparing beverages and/or food; electric waste disposal devices including waste shredders and waste compactors; dishwashing machines; electric machines and devices for treating laundry and garments including washing machines, spin dryers, pressing machines, and ironing machines; electric cleaning devices for household purposes, in particular window cleaning devices, shoe cleaning machines, vacuum cleaners, wet and dry vacuum cleaners; dust filter bags for vacuum cleaners; hoses as machine or engine parts; pipes as machine or engine parts; nozzles as machine or engine parts; dust filters for vacuum cleaners; electric film sealing machines; electric devices for dispensing beverages or food; vending machines; parts, tools, and accessories for the aforementioned goods, as far as included in class 7; electric welding apparatus; electric arc welding apparatus; electric arc cutting apparatus; welding electrodes; door openers, electric; door closers, electric; lift controls; elevator controls; solar generators; starters for motors and engines; generators; direct injection for liquids and hydrogen [injectors for engines]; soldering lamps; starting devices [starters] for internal combustion engines, being goods included in Class-07.
